PROFESSIONAL SUMMARY

Full-stack Software Engineer who designs and delivers enterprise, web and mobile applications, from front-end (Angular, TypeScript, JavaScript) to back-end (C# / .NET, Python). At Bassetti Group, I build AI features and integrations between enterprise systems. Earlier experience in mobile development with Flutter and .NET MAUI.

TECHNICAL SKILLS

Languages	JavaScript, TypeScript, C#, Python, Dart, Kotlin, Java, PHP, SQL, Delphi
Web & Backend	Angular, React, Node.js, Express, Nest.js, .NET / ASP.NET Core, REST APIs, FastAPI, Spring Boot, Django, WordPress
AI & Integration	Azure OpenAI, LLM agents, Document extraction, SAP API integration
Mobile	Flutter, FlutterFlow, .NET MAUI, Android (Kotlin), iOS (Swift)
Data, DevOps & Tools	SQL Server, MySQL, MongoDB, Firebase, Git / GitHub, Jenkins, SonarQube, Postman, Figma

PROFESSIONAL EXPERIENCE

Full-Stack Software Engineer — Bassetti Group 2026 – Present

- Full-stack development: front-end in Angular, TypeScript and JavaScript; back-end in C# / .NET (REST APIs), Python (FastAPI) and Delphi; delivered through pull requests, Jenkins builds and SonarQube quality gates.
- Integrated an agentic AI assistant into the web client of TEEXMA, an enterprise knowledge-management and LIMS platform: Angular chat UI, tool-step panel, answer rendering and rating (TypeScript).
- Delivered an AI-powered safety-data-sheet extractor: Angular upload portal, Azure OpenAI section extraction, and one-click release packaging of API, portal and file publisher.
- Built a laboratory-reception integration between the LIMS and SAP: C# / .NET REST API for scanned samples, authenticated SAP gateway calls, Delphi business module and regression tests.
- Shipped platform features in JavaScript and Delphi (time-tracking comments and permissions, generic map) and migrated customer developments to a new major platform version.

Tech : C#, .NET, JavaScript, TypeScript, Angular, Python, Azure OpenAI, Delphi, SAP API, Jenkins, SonarQube

IT Engineer — Dar Ammar Meuble Nov 2025 – present

- Own the development and maintenance of all the company's web solutions.
- Design and optimise customer-facing websites and internal platforms used to manage the showrooms, with a focus on performance, security and usability.

Tech : WordPress, PHP, MySQL, JavaScript, HTML/CSS, Flutter

Final-year internship (PFE) — Hotix Jan 2025 – Jul 2025

- Built a cross-platform mobile app for hotel guests to browse services, activities and stay information.
- Personal space with invoices, service requests, bookings and a loyalty programme with redeemable points.

Tech : .NET MAUI, C#, MySQL

Engineering internship — ESPRIT Jul 2024 – Sep 2024

Built a mobile app for a perfumery that recommends fragrances from the customer's favourite olfactory notes. *(FlutterFlow, Firebase)*

Immersion internship — Sagemcom Aug 2023 – Sep 2023

Built an automated test-data management system to streamline production testing and keep critical data available. *(Python, Django, MySQL)*

Summer internship — STB Bank Jul 2022 – Aug 2022

Built a responsive website to improve communication between the bank and its customers. *(HTML, CSS, PHP)*

ACADEMIC PROJECTS

- **Brainiacs** (2024) — Educational games & care for autistic children. *Flutter, Node.js, Express, MongoDB, Unity.*
- **Ecocircuit** (2024) — Raising awareness about e-waste recycling. *Kotlin, Swift, Flutter, Node.js.*
- **QuickShip** (2023) — Transport & logistics management. *Java, JavaFX, MySQL, Symfony.*

EDUCATION

Software Engineering degree — ESPRIT — École Supérieure Privée d'Ingénierie et de Technologies 2022 – 2025

Integrated preparatory cycle, Computer Science — ESPRIT 2020 – 2022
