SKILLS

Languages

C# · TypeScript · JavaScript · Dart · Kotlin · Java · Python · PHP · SQL · Delphi

Mobile

Flutter · FlutterFlow · .NET MAUI · Android (Kotlin) · iOS (Swift)

Web & Backend

Angular · .NET / ASP.NET · Node.js · Nest.js · Express · FastAPI · Spring Boot · Django · WordPress

Data & Tools

MySQL · SQL Server · MongoDB · Firebase · Git / GitHub · Postman · Figma · Visual Studio · AI coding assistants

EDUCATION

Software Engineering degree
ESPRIT · 2022 – 2025

Integrated preparatory cycle, Computer Science
ESPRIT · 2020 – 2022

LANGUAGES

Arabic — Native

French — Fluent

English — Advanced

Amal SOULI

Software Engineer · .NET · Angular · Flutter · Python

PROFILE

Software engineer building enterprise, web and mobile applications end to end. Hands-on with C# / .NET, Angular, Python (FastAPI) and Flutter / .NET MAUI, from REST APIs and data models to polished cross-platform UIs. Comfortable in multi-team delivery: migrations, regression testing, customer releases and AI-assisted development.

EXPERIENCE

Software Engineer · Bassetti Group

Present

- Build and maintain customer-specific modules of TEEXMA, an enterprise knowledge-management and LIMS platform (Delphi, C# / .NET).
- Develop REST API endpoints in .NET and Angular front-end features for the platform.
- Contribute to Python (FastAPI) services, including an AI conversational assistant and a document-extraction module.
- Handle migrations to new platform versions, regression testing and customer deliveries.

C# · .NET · Delphi · Angular · Python · FastAPI · SQL Server · Git

IT Engineer · Dar Ammar Meuble

Nov 2025 – present

- Own the development and maintenance of all the company's web solutions.
- Design and optimise customer-facing websites and internal platforms used to manage the showrooms.
- Keep the applications fast, secure and easy to use, and answer the needs of each department.

WordPress · PHP · MySQL · JavaScript · HTML/CSS · Flutter

Final-year internship (PFE) · Hotix

Jan 2025 – Jul 2025

- Built a cross-platform mobile app for hotel guests to browse services, activities and stay information.
- Personal space with invoices, service requests, bookings and a loyalty programme with redeemable points.

.NET MAUI · C# · MySQL

Engineering internship · ESPRIT (Jul 2024 – Sep 2024) — Built a mobile app for a perfumery that recommends fragrances from the customer's favourite olfactory notes. [FlutterFlow, Firebase]

Immersion internship · Sagemcom (Aug 2023 – Sep 2023) — Built an automated test-data management system to streamline production testing and keep critical data available. [Python, Django, MySQL]

Admissions assistant · ESPRIT (2020 – 2024) — Welcomed and enrolled new students, ran open days and admission sessions, and handled admission communication and marketing.

Summer internship · STB Bank (Jul 2022 – Aug 2022) — Built a responsive website to improve communication between the bank and its customers. [HTML, CSS, PHP]

SELECTED PROJECTS

🧩 **Brainiacs** · 2024
Educational games & care for autistic children.
Flutter · Node.js · Express · MongoDB · Unity

♻️ **Ecocircuit** · 2024
Raising awareness about e-waste recycling.
Kotlin · Swift · Flutter · Node.js

🏨 **Hotix Guest** · 2025
Hotel guest companion app (final-year project).
.NET MAUI · C# · MySQL

QuickShip (Java, JavaFX, MySQL) · **Ski Station** (Java, Spring Boot, Maven) · **Scent Finder** (FlutterFlow, Firebase) · **Beauty Center** (PHP, MySQL, HTML5)
